You can use these fill and erase tools to make a selection in an image, or just use them to erase a foreground or background. The Brush Tool: To use the Brush Tool, you click the left mouse button on the image while pressing and holding the right mouse button. You can drag along the canvas by clicking and holding the left mouse button and move the cursor around the image by clicking and dragging. The Brush Tool Brush Tip can be set at any size, or you can resize the Brush Tool using the Resize Brush Tip tool at the bottom of the tool. Once you have a brush, you can paint by clicking and dragging the cursor. You can also use the Brush Tool Eraser to reduce the size of brush strokes and erase out part of the image. You can paint in any color and the brush strokes are permanent. You can also paint in color or black and white and have the strokes automatically blend together. The Brush Tool Drop Pin tool enables
