
Pipe Flow Expert V7.30 20

Calculation of pressure drops of liquids and gases flowing in pipes (laminar and turbulent flow). New version: SF Pressure Drop 10.x for Excel. SF Solutions has introduced a new version of the SF Pressure Drop application, designed to calculate the pressure drops of liquids and gases flowing in pipes. According to Softline, the new version of the application received a number of visual improvements and was improved in terms of compatibility with Excel. Changes include improved visuals, support for Excel 2013, and improved handling of large files.
