Effects of the antiprogestin ZK98134 on reproductive performance and ultrastructure of prepuberal mammalian oocytes. In the non-mammalian organism, little is known about the effect of gestagens on oocyte maturation, fertilization, and development. The aim of the present study was to investigate the effects of ZK98134, a potent synthetic antiprogestin, on the maturation and fertilization of prepuberal mouse oocytes and their subsequent development. ZK98134 increased the percentage of MII oocytes, the number of 2-cell embryos per oocyte and the number of cleaved embryos in a concentration-dependent manner and it also increased the percentage of blastocysts with their chorion. Exposure of oocytes to ZK98134 (0.1, 1, or 10 microM) for 24 h or in 5-min pulses did not affect maturation and fertilization. Incubation for 6 h with ZK98134 (1 microM) suppressed the resumption of meiosis in oocytes derived from ovaries collected at different stages of the oestrous cycle (ICSI, COCs, oocytes from parthenogenetic embryos). In postpartum (PP) oocytes, ZK98134 (1 microM) impaired the meiotic resumption but had no effect on the maturation and fertilization, and development of zygotes. In prepuberal oocytes (COCs, ICSI, and POCs) exposed to ZK98134 (1 microM) for 24 h, the zona pellucida thickness was reduced to 50.5, 49.0, and 45.1% respectively, and the integrity of the cortical granules was impaired. These results indicate that ZK98134 does not interfere with the meiotic maturation of prepuberal oocytes but that prolonged administration has a suppressive effect on the resumption of meiosis. Moreover, the inhibitory effects of ZK98134 are more pronounced

In fact the writer, director and lead actor had a cathartic experience with the idea of portraying a police officer in the film and zeroed in on Bollywood as it offered a solution to the real-life problem of how the common man can find release from police jurisdiction and fight their battle. He was impressed with the results while doing research on how to tackle the problem by writing the film with a story as fictional as a film. His research also revealed that the average Indian was willing to pay more money to watch such a film. Vathikuchi is based on a theme of police corruption and an officer who fights with unwavering determination to expose the real culprits. The film is produced by a cop named Gauthaman Narayanan who could not get funding for the script after many attempts. The film therefore is a result of an incident that happened to the writer and the producer of the film when police busted a gang that was smuggling contraband in a car and arrested the driver and crew. Authorities then searched his laptop and found the unreleased script. This incident affected Gauthaman Narayanan very much and he had to start from scratch writing the script for the film. The script is based on a true incident and is a comment on what happens when a person resists the system and continues to question the authorities of their attitude. He believed that the film would be a huge success if it was made in Tamil and he was right. The film became a huge hit with audiences who were able to empathise with a policeman who is just like them. The film had huge success at the box office and made a mark in the ongoing trend of police films in Tamil. It also opened up other offers to actors including a film with Arjun Sarja and Mohanlal though the actor rejected it. The director was aiming to make the film in Hindi but since Mohanlal had shot for a film in Hindi the movie was shelved. The film did not find favour with producers because there was a steady stream of money coming into the coffers from Tamil as more Hindi films had started to be shot in Tamil. The film was also challenged for its portrayal of police officers in the film and it received heavy backlash. So, the writer and director decided to make the film in Tamil and did not expect it to become a huge hit. However, the film was a huge hit and went on to become a best seller among the police films 04aeff104c
